**SPECIALISTS**

AAA Road Service

Phone 3004 -- Roanoke

Once again we are running on the dustfree cement for cleaner operations and faster and more thrill-packed competition. The track is approximately 1/10 mile on the pole and the cars must be equipped with underpan aprons, mufflers and catch tanks to keep the track dry and fast. Methanol alcohol is used indoors to reduce fumes.

## **The WHEEL INN Restaurant**

*Where Sports Fans Meet*

Would like to call your attention to the fact that you are welcome to go down into the huge exhibition hall which lies underneath this entire Coliseum. There you will find the pits and be able to get close enough to see the cars and talk to the drivers. You will find signs directing you to the stairway that leads to the pits at the foot of all four ramps, on the ground level.
