A LETTER TO OUR FANS

As a new decade, and the third year of the World of Outlaws, is upon us, I would like to take this opportunity to show my appreciation to all of our many fans and supporters.

On March 17, 1978, a dream became a reality as Jimmy Boyd took home the trophy for the first World of Outlaws point race, which was held at Devil's Bowl Speedway in Dallas, Texas. The response was overwhelming as our organization was born. We have many to thank for the tremendous success, but primarily the people in the stands demand much of the credit. Without your loyalty and support the World of Outlaws could not be where we are today.

Now, as the baby is becoming a teenager, the organization can boast many accomplishments which very few others have been able to at such a young age, and we are going nowhere but up the ranks in the realm of auto racing. We are now recognized by all of the major publications as a primary sanctioning body. It was a tough fight, but we made it!

Again, I thank you, our fans, for your part in our success, and keep in mind; As the World of Outlaws take their traditional four abreast parade lap, we are saluting each and every one of you, and showing our appreciation for all you have done

Ted Johnson

HOME ON THE RANGE...

OR RUNNING 200 MPH AT DAYTONA...

A.J. FOYT CHOOSES CRANE CAMS

There's a lot of difference between running 200 mph down the backstretch at Daytona and climbing hills at 40 mph down in South Texas. But four-time Indy winner A. J. Foyt insists on Crane Cams for both!

A. J.'s famous race cars always run up front. That takes horsepower and reliability...the kind A. J. knows he gets from Crane Cams.

Back at his Houston, Texas ranch A. J.'s Crane Gripper HT cam puts more bottom-end torque and mid-range power into his personal Chevy pick-up.

A. J. knows that a Crane Gripper HT cam improves both low-end and driveability, and makes driving across a Texas-sized spread a whole lot more fun...even with today's emissions engines and fuel economy gearing.

Although you can't run side-by-side with A. J. at Daytona, you can find out what a Crane Gripper HT cam can do for your everyday street vehicle, on the highway, or home on the range.

CRANE Cams®

PO Box 160-17

**CRANE LIFTERS BRING OUT
THE BEST IN YOUR CRANE CAM!**

Ask for Crane Cams' hydraulic, or mechanical lifters. They're designed to deliver all the performance designed into your cam.

A LOOK AT 1979

1979 saw the World of Outlaws kick-off their racing season at the Southern Sprint Nationals held in Gibsonton, Florida. As the travelling caravan made their way across the United States, stopping in 21 states and Canada, many strides were made in the sport of dirt sprint racing, many track records were broken and many stars were born. Steve Kinser became the 'Outlaw' to beat as he found himself in the winner's circle on 23 occasions while defending his title as "King of the Outlaws" for 1978. Lee James became the rookie sensation as he raced his way across the country for the first time. In the course of the year he perfected his ability to run on short tracks and with wings, neither of which he had ever done in the past. Sammy Swindell, in his Federal Express, #91 sprinter, made a valiant effort as he took a run for the championship title. He had a total of 11 feature wins by the time all was said and done, but motor problems, which plagued him frequently, played a crucial role in the outcome. The man who was to finish third in the overall point standings had a disappointing and frustrating year, constantly fighting a battle with mechanical problems, Rick Ferkel confronted one difficulty after another, and struggled to finish the season with five wins and many nights which he wished weren't. Bobby Allen, the ever-popular Pennsylvanian, also had a trying season, blowing one motor after another. He kept plugging, though, but by late summer had to haul his equipment home and try to strengthen his forces before season's end.

While few drivers had disappointing years, the majority did themselves proud. Like Doug Wolfgang, who after changing rides mid season and missing many World of Outlaws events, still had quite a year finishing a successful fifth in the point standings, with 7 feature wins to his credit.

The culmination of the year came on October 21st, at Eldora Speedway in Ohio. The festivities were on the same tone as the entire season, with spirits high and adrenalin flowing. The fans came out in droves and NBC's cameras were there to record the day's events. By dusk, Steve Kinser, who had pocketed many checks throughout the year, had yet another one, as he took the honors, along with the \$5,000. first place prize, for the ten lap "Busch Bash". The big winner for the day, however, was Shane Carson, who, as in the same race in '78, went home \$11,000. richer when he won his second point race of the year.

By the night of the 21st, and after many miles travelled, the World of Outlaws had ended their second year. Everyone was sorry to see the close of the season, but 1980 was just around the corner, and with it would come another nine months for the top dirt sprint stars in the country to lock horns and vie for the prestigious title.

Let's Go RACING

★
WE ARE SEEKING

a national major sponsor who will benefit from and enjoy a relationship with one of the hottest "outlaw" sprint car teams on the circuit today!

★ SUPER-STAR TEAM!

Driver Doug Wolfgang, race car owner and project engineer Bill Smith, chief mechanic John Singer and engine specialist John Marsh combine their talents to make this the best outlaw sprint car team ever! The entire team boasts over 100 years of racing experience!

★ THE BENEFITS ★

- NATIONAL TV EXPOSURE
National network coverage includes five national races and several regional races throughout the season!
- NEWS MEDIA COVERAGE
(Love 'Em!) Includes feature articles in many national magazines, newspaper write-ups, public appearances and personal interviews!
- CAPTIVE AUDIENCES
Over one-half million people will see the team perform "live", from Florida to California, Canada to Texas!
- ON-THE-ROAD COVERAGE
Actually a traveling advertisement, the team covers in a single season over 70,000 miles, 30 or more states!

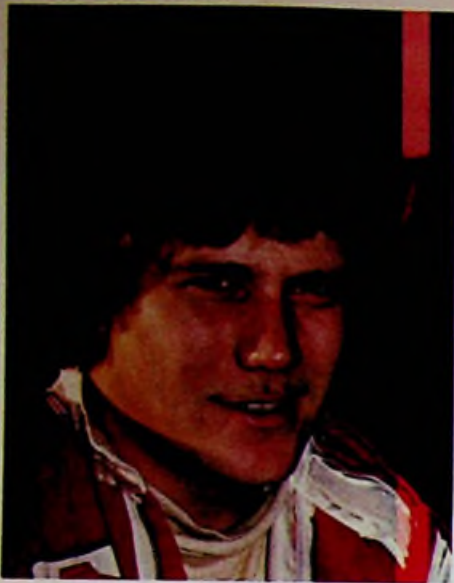

★ ABOUT OUR BOYS ★

Acclaimed by sportswriters as the "Foyt of the '80's", Doug Wolfgang makes and breaks the records! — KNOXVILLE NATIONAL CHAMPION (two years in a row) — SOUTH DAKOTA ATHLETE OF THE YEAR (two years in a row)! Bill Smith, another competitive tiger, owns Speedway Motors, Inc., the business he started 28 years ago. He has helped many of the "greats" get their start . . . Tiny Lund, Jan Opperman, Ray Lee Goodwin among a few! Entrepreneur and creative genius, Bill makes winning a habit!

WE WANT YOU ★ ★ ★

as our major national sponsor!
For more information, contact:
Bill Smith, 300 Van Dorn,
Lincoln, Ne. 68502.
(402) 477-9844
(Advertising agencies encouraged.)

Steve, age 26, hails from Bloomington, Indiana. Driving the Kinser Bros. car #11, he has captured the "King of the Outlaws" title 2 years in succession. Starting his sprint racing career in 1976, he has amassed over 100 feature wins, 35 of these on the outlaw circuit in '78 and '79. Steve spent the winter racing "down under" in Australia and added 6 more feature wins to his list of accomplishments.

Steve Kinser

Tim Green

Tim, age 23 from Carmichael, California, was named Rookie of the year for 1979 in Knoxville. He was the winner of the '79 Western World Championships. He held the coveted pole position for the Gold Cup in Sacramento and the Knoxville Nationals until mechanical problems ended his quest for these wins. He began his racing career in go-carts and modifieds, but now pilots car #55 owned by Jensen Construction Co., Des Moines, Iowa, wrenched by Ken Woodruff.

Sammy Swindell

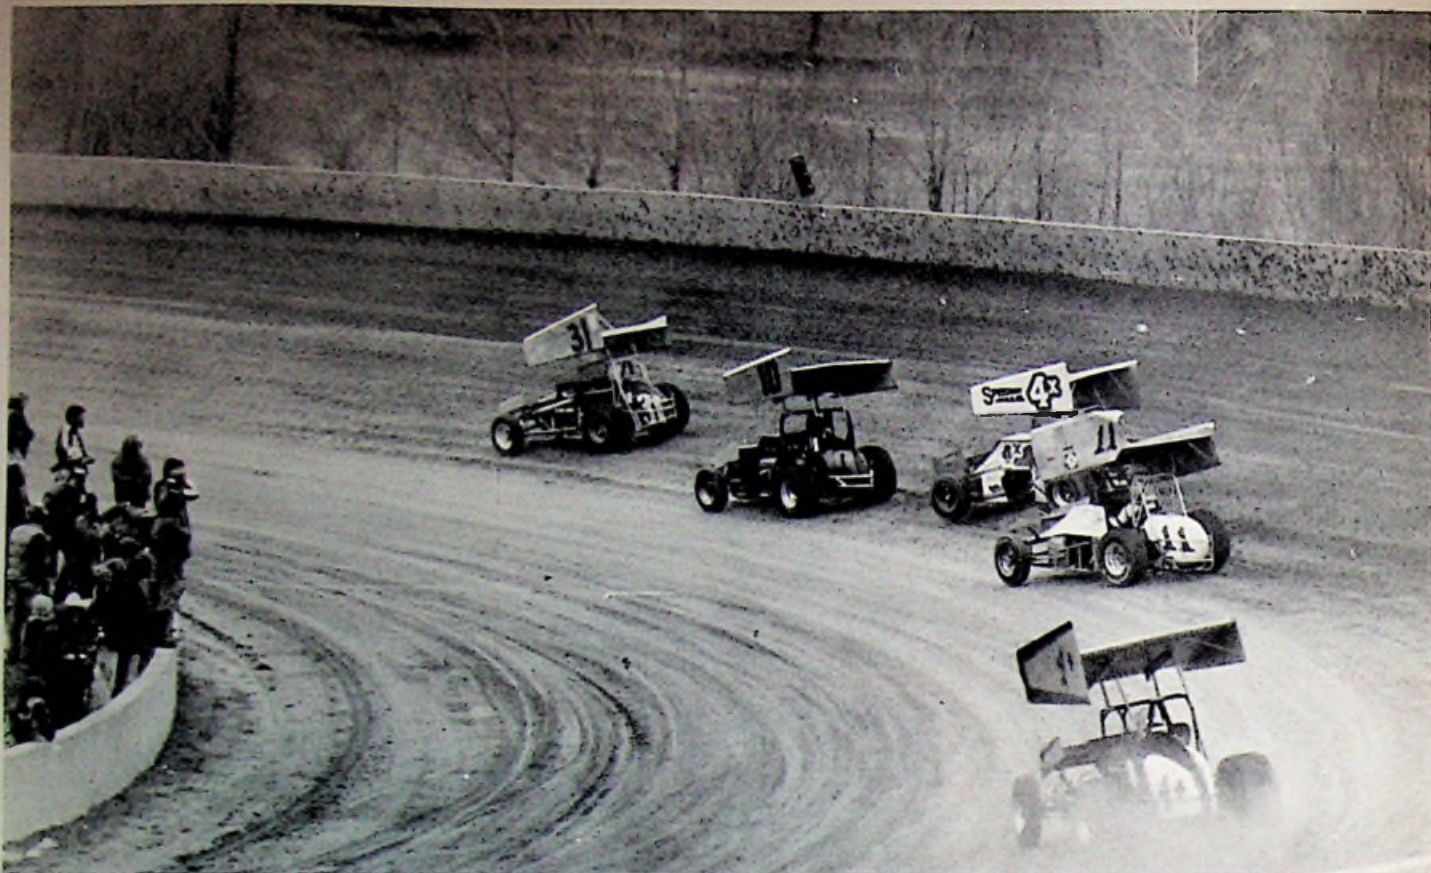

"Slammin" Sammy, age 24, started racing in his home town, Memphis, Tenn. at the age of 16. His career includes over 150 feature wins, numerous track records across the United States, and the only international World of Outlaws victory thus far at Winnipeg Speedway, Winnipeg, Canada. Sammy finished second place in 1979 driving A. J. Jeffery's #91 sprinter sponsored by Federal Express. Sammy has always been a major factor in every race entered.

Doug Wolfgang

Doug calls Sioux Falls, S.D., his home. Wolfy drives Bill Smith's #4X sponsored by Speedway Motors. He is the defending champion of the Southern Sprint Nationals. Doug, 27, began racing in 1974, has over 150 feature wins and 7 track records to his credit. A two time winner at the Knoxville Nationals, 5th in outlaw points in 1979, he also matched his skills with the drivers in Australia this past winter.

"Corner action" Outlaw style at Eldora Speedway. Jac Haudenschild (31), Ron Senelka (10), Doug Wolfgang (4X), Steve Kinser (11) and Bill Corbin (4-clubs). (Tracy Talley Photo)

TUFF STUFF

BULLET-PROOF PERFORMANCE PRODUCTS FROM CROWER

Our technical advances of the past few years have enabled us to attain such a great degree of manufacturing expertise that parts breakage, in a properly prepared and maintained engine, can be virtually eliminated. Our use of space-age materials and design/production techniques offers you, the serious engine builder, the supreme components required in your efforts to coax the maximum power and longevity from your engine. Crower performance engine products are truly the toughest components available.

CAMSHAFTS & KITS

The tradition of Crower precision camshafts represents a great many years of development and refining to assure the optimum in performance and longevity. We offer no "general application-shelf units" as our engineering department has designed and formulated each profile for a specific RPM and power range. We have available lightweight kits containing lifters, springs, and retainers specifically designed and tailored to complement your choice of camshaft. In addition to cams and kits we also manufacture a full array of precision valve train components that enable optimum valve train action and let your engine develop its maximum horsepower potential.

ROCKER ARMS

Our bullet-proof stainless steel rocker arms obsolete old fashioned aluminum rockers by delivering less friction, more accurate valve adjustment, and extreme rigidity. These exquisite rocker

arms feature 17-4Ph stainless steel construction, 1025 heat treat, Torrington oversized needle bearings, sure-lock rocker nuts, 52100 ball race steel tip rollers and are available in all popular ratios.

CRANKSHAFTS

In these times of escalating racing costs and the need for extended component life, we are proud to offer premium quality billet steel crankshafts. This exceptional product offers maximum strength (Up to three times over conventional units), durability, less running distortion and substantial weight savings over other brands of billets. Crower billet crankshafts are designed and machined in-house from

aircraft quality 4340 steel. We heat treat, magna flux and shotpeen each unit to ensure bulletproof reliability and long life. All Crower billet crankshafts feature Tuffriding, full radius fillers, balanced center counterweights (if desired), cross drilling and micro polishing. Optional features include your choice of stroke, rod and main journal diameter, chrome finish, custom drilling and knife edge counterweights. In addition to our fine line of billet crankshafts, we also manufacture a special 5140 Forged steel crankshaft. As with our billet series, the forged units are available in a wide range of strokes and journal diameters.

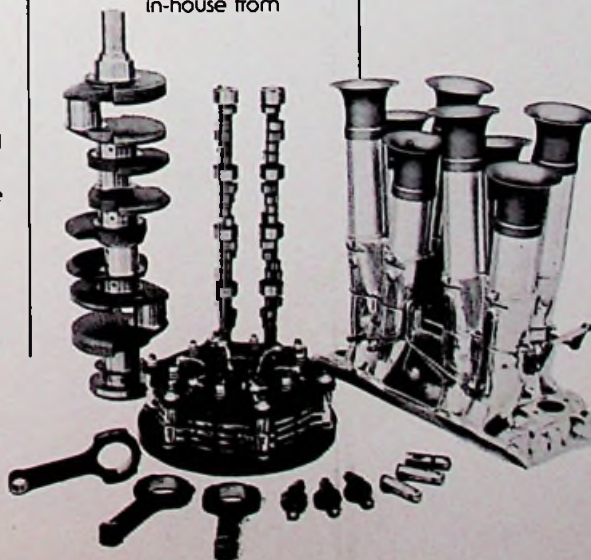

CONNECTING RODS

Crowerods are produced with the same exquisite craftsmanship that is so evident in all our components. These custom 4340 steel billet and forged rods feature thru-bolt fastening using special alloy bolts with aircraft grade 12 point nuts. The widened parting line foot

reduces chafing and distortion at severe load as the deeply ribbed cap insures true roundness at high RPM.

Each product we manufacture is designed and produced in-house on the finest available state-of-the-art equipment, guaranteeing the unequalled precision and accuracy you demand for your money spent. We recommend that you contact your dealer or our technical department for suggestions concerning the optimum camshaft and component combination for your specific application or send for our catalog. All of the fine performance products seen on this page plus our proven eight-port fuel injectors and Crowerglide automatic clutches are listed in the all-new Crower Master Catalog. Fill out the coupon below and send along with \$2.50 for this 112 page book and an in-depth look at the parts that can put you in the winners' circle!

Lee Osborne

"Oz", age 32, not only races a sprinter, he also builds them in the "Smitty Shop" in his home town of Jamestown, Indiana. He began racing heavies in western New York in 1965, transferred to sprints in 1969. He finished second in the KARS Point race for 3 years running. 1978 found him in the top 10 for W.o.O. and even with a late start in '79 finished in the top 20. His Osborne chassis #81 is owned by Bob Hovermale.

Shane Carson

Shane, age 25, is from Oklahoma City, Oklahoma, driving car #20 owned by Bob Trostle and sponsored by Vise Grip. He ran with the W.o.O. on a limited basis in 1978 and 1979, nevertheless, finishing in the top 20 both years. He captured both final point races each year at Eldora Speedway to the tune of \$21,000. Not bad for a part time job.

Lee James

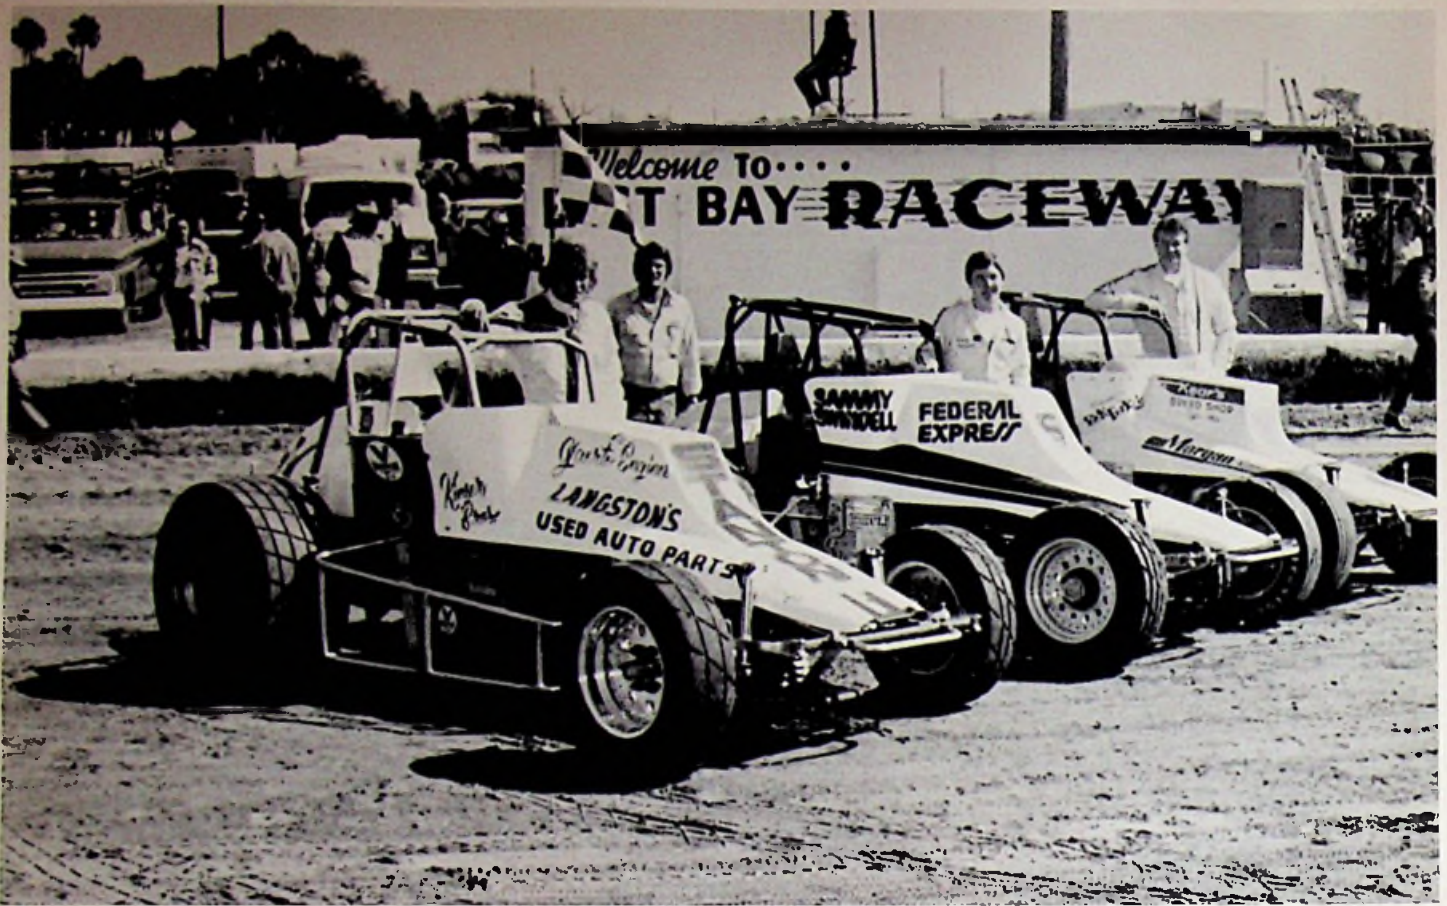

Lee, 26, head of the "James Gang" racing team is a California transplant to Lizton, Indiana. His sprint racing career began in 1975 with the California Racing Assn. 1979 found Lee, in #15 owned by Dale Pettet and a few members of the James Gang headed for outlaw country. Here he encountered short tracks and wing shows which were totally new to him, nevertheless was able to capture fourth place in the point standings. The "James Gang" rides again!

Don Mack

Don, a farmer from East Grand Forks, Minnesota, is 39 years old and the father of 4 children. He has been racing for 20 years. His current "ride" is the Howells, Inc. #4 out of Hunter, N. D., wrenched by Doug Howells. He has been a W.o.O. regular so far this year and is qualified for a top finish position. He plans on running many more of the Outlaw races.

1979 TOP TRIO — Steve Kinser (11), Ted Johnson (W.o.O.), Sammy Swindell (91) and Rick Ferkel (0). (Tracy Talley photo)

Rick, age 40, from Findlay, Ohio, is often referred to as the "Ohio Traveller". Since his start in 1965 he has amassed more than 300 feature wins, including the 1974 Western World Championship. His familiar car #0 is owned by Paul Morgan of Tampa, Florida and sponsored by Kears Speed Shop. He finished 2nd in W.o.O. points in 1978 and 3rd in 1979.

Rick Ferkel

Danny Smith

This 23 year old from Lizton, Indiana, pilots the C.K. Spurlock-Kenny Rogers No. 18 "Gambler". He began his racing career in the "Little 500" at Anderson, Indiana, starting in the back and finished third. Since age 16, he has been racing sprinters and captured the track championship at Paragon in 1978. Part time racing with the W.o.O. in 1979 gave him a 14th place finish.
