6th Annual DIRT TRACK WORLD CHAMPIONSHIP

----- \$40,000 TO WIN! -----

PREVIOUS WINNERS - DIRT TRACK WORLD CHAMPIONSHIP

1981	JIM DUNN	ZANESVILLE, OHIO
1982	CHARLIE SWARTZ	ASHLAND, KENTUCKY
1983	FREDDY SMITH	KINGS MOUNTAIN, NORTH CAROLINA
1984	JACK BOGGS	WEBBVILLE, KENTUCKY
1985	FREDDY SMITH	KINGS MOUNTAIN, NORTH CAROLINA

The Most Prestigious Late Model Race in America!

WE COVER THE TRACKS AT COMPETITION CAMS!

From Late Model Dirt Track to Winston Cup Series to All-Pro, Sprints, Limited, Modified and yes, all the way to Hobby and Street Stock — Competition Cams covers them all!

Nationally known Oval Track engine builders and car owners choose Competition Cams' camshafts and valve train components because of their horsepower, reliability and durability to finish those multi-mile races and WIN! When only the best will do, professional racers choose Competition Cams and valve train components, exclusively! Shouldn't you?

HI-TECH CAMS

You can drive a wedge between you and the competition with a Competition Cams' Hi-Tech Cam System! Our new Hi-Tech Cams provide a controlled valve motion never before accomplished with any other camshaft design. This precisely controlled valve motion allows your engine to produce maximum torque and horsepower throughout the RPM range. Hi-Tech Cams do not rely on a "slow lift" or "slam open" theory. These cams have an exactly controlled rate of lift to maintain intake flow velocity. With a Hi-Tech Cam, the camshaft becomes a modulator between the bore/stroke/rod length ratio of the engine.

HI-TECH STAINLESS STEEL ROLLER ROCKERS

From aluminum to 4340 Chromemoly to Space Age Stainless Steel — Competition Cams has tried and tested them all and found that our Hi-Tech Stainless Steel Roller Rockers are the ULTIMATE BY FAR IN STRENGTH! Hi-Tech Stainless Steel Roller Rockers should be used with today's fast-acting, super high lift cams and high

spring pressures. The larger trunnions on these rockers flex less and allow the usage of larger diameter needle bearings to reduce friction and increase reliability. We machine each and every Hi-Tech Rocker in our own shop to insure accurate rocker ratios. We offer these rockers in 1.5, 1.55, 1.60 and 1.65 ratios to provide you with EXACTLY the ratio you want for a particular application. With Competition Cams' Hi-Tech Stainless Steel Roller Rockers you can have all the advantages of superior strength, less deflection, light reciprocating weight, and the exact rocker ratios you want WITHOUT MAJOR COST!

NI-TECH CHROMEMOLY PUSH RODS

Competition Cams' Magnum Chromemoly Push Rods have precision ground heat-treated tips for maximum life. These push rods are made of chromemoly ni-12

heat-treated steel and are ideal for high performance applications.

RACING VALVE SPRINGS

Magnum Valve Springs are designed for the high lift produced by today's racing cams. These valve springs will allow your engine to produce maximum RPM. The heat stabilized chrome silicone material of Magnum

Valve Springs promotes valve train stability while preventing cam wear or push rod failure.

COMPETITION RODS

Proven by top Late Model racers, Sprint car racers and NASCAR Grand National teams, our Competition Rods are stronger and provide more cam clearance. All Competition Rods are precision balanced and come in perfectly matched sets. We have included in our "Rod Package" all of the critical components — ARP 2000 super

strength bolts and special GN-type pin bushings cut from solid bar stock. All Competition Rods are 100% X-rayed and magnulfuxed!

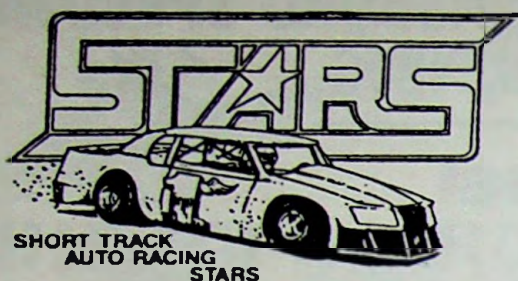

COMPETITION PINS

To complement our Competition Rods, we offer Competition Pins. These pins feature a lightweight design and are made of the finest steel for tremendous strength and reliability. Most racers rely on Competition Pins because they work.

DIRT TRACK WORLD CHAMPIONSHIP
 TO PAY \$40,000 TO WIN!

PENNSBORO, WV--The sixth annual Dirt Track World Championship, scheduled to run at the legendary Pennsboro Speedway on October 18-19, will pay \$40,000 to the winner from a total purse of over \$100,000.

The two-day event, which annually draws cars, drivers, and race fans from across the United States, is considered to be the premier event in late model stock car racing. Previous winners of the Dirt Track World Championship include Jim Dunn (1981), Charlie Swartz (1982), Freddy Smith (1983), "Black Jack" Boggs (1984), and Smith again in 1985. Smith, of Kings Mountain, NC, is also a two-time winner of the Hillbilly 100 held annually at Pennsboro Speedway.

**TWO-TIME DIRT TRACK WORLD CHAMPION
WILL BE BACK FOR 1986 RACE**

PENNSBORO, WV--Freddy Smith, the 1983 and 1985 winner of the Dirt Track World Championship for late model stock cars was among the first to file his entry for the 1986 race to be held October 18-19 at the legendary Pennsboro Speedway. The popular driver from Kings Mountain, North Carolina, has notched four major victories at Pennsboro, having twice won the annual Hillbilly 100 race as well. Last year Smith took home \$30,000 and in 1983 pocketed \$32,000 for winning the 100-lap World Championship. This year's running will pay \$40,000 to the winner from a total purse of over \$100,000, a prize Smith certainly has his eye on. Other previous winners expected to return are Jack Boggs of Webbville, KY (1984) and Charlie Swartz of Ashland, KY (1982). Jim Dunn, winner of the first Dirt Track World Championship in 1981, is deceased.

"I love the little race track," Smith said during a recent interview. "It's a country race track and the people just come back every year to enjoy the racing." Smith, 39,

has been racing all over the United States for the past 20 years, yet seems to be looking forward to this year's race with his usual enthusiasm. "My first win at Pennsboro was the Hillbilly 100 in 1983 and we've only missed one race there since then."

Smith, whose car is sponsored by RHS Performance Engines, C.J. Rayburn, CAM-2, Schoenfeld Headers, and Toyota of Florence feels that "patience" is the key to winning at the historic dirt facility. "You can't get in a hurry because you'll get into trouble. You can pass coming out of turn two, but the track gets narrow as you come to the bridge (at the end of the back straight) and you've got to be careful as well as fast."

Although Smith feels this has been an off-year for his full-time racing program (he was 12th at this year's Hillbilly 100) he recently won two big races at Concord, North Carolina, and can be counted on to have his equipment in top shape for the Sixth Annual Dirt Track World Championship.

PENNSBORO SPEEDWAY

The Tradition Continues!

Notice any difference in your surroundings this year? Here is a partial list of improvements made to the legendary Pennsboro Speedway by promoter Rick Gross and Track Foreman Herman Staats:

- new scoring tower
- new pit office
- improved bleacher seating
- new seating on back stretch
- new clay on the track surface
- new guard railing inside and out
- new P.A. system (Sounds great!)
- plenty of portable restrooms
- everything painted and trimmed

The track motto for 1986 has been "The tradition continues." Obviously, however, only the "good" traditions of Pennsboro continue while the distasteful and inconvenient problems have been eliminated. Enjoy your visit and plan to return for great racing in 1987!

Jack Boggs--1984 DTWC (Kammerer)

Freddy Smith--1983-85 DTWC (Kammerer)

PENNSBORO, WV--Three area girls won beauty titles at ceremonies held recently at the legendary Pennsboro Speedway. Melissa Jackson was named Miss Pennsboro Speedway for 1986, Julie Williams won the Miss Dirt Track World Championship crown, and Kelly Britton became Miss Hillbilly 100 and reigned over the 18th running of that famed late model race on Labor Day weekend. All three girls will be present at the track for the Sixth Annual Dirt Track World Championship on October 18-19.

Jackson, who won \$100 along with her title, is a senior at Pennsboro High, and it is especially fitting that she became Miss Pennsboro Speedway: Her grandfather, Carol Jackson, started the first Hillbilly 100 race at the track back in 1967. Melissa is a native of Pennsboro. Williams, Miss Dirt Track World Championship, is a resident of nearby Ellenboro and is a senior at Ritchie County High. Her dad drives mini-stock cars and she frequently attends races. Williams won \$75 with her crown. Kelly Britton, Miss Hillbilly 100, is a 1985 graduate of Pennsboro High School and works at York Color Labs in Parkersburg. She won \$50.

BEAUTY QUEENS CROWNED AT PENNSBORO SPEEDWAY

The beauty queens were chosen by a vote of the drivers and pit crews on a recent practice day at the track. Runnersup in the contest were Melissa Clevenger of Clarksburg and Flossie Lanham of Pennsboro. Advisor for the contest was Mary Jane Wilson of Pennsboro.

**TAMROY MINING POSTS \$1,000 BONUS
TO DTWC FAST QUALIFIER**

PENNSBORO, WV--Tamroy Mining of Beckley, WV, has added \$1,000 to the \$250 Fast Qualifier prize for the Dirt Track World Championship. Chenoweth Ford of Clarksburg, WV, is the sponsor for the \$250 portion, bringing the total award to \$1,250 for the fastest late model stock car after time trials, scheduled for noon on Saturday, October 18. The total purse for the event is over \$100,000 with \$40,000 going to the winner of the 100-lap feature on Sunday, October 19.

"I really enjoy racing," said Jack Williams of Tamroy Mining. Williams also sponsors two of the cars entered in the DTWC: No. 7, driven by Dick Bartusiak of Beckley, WV; and No. 5, driven by Rodney Combs of Lost

Creek, WV. Tamroy Mining has been involved in racing sponsorship since 1980 and Williams finds it good for business. "We usually talk racing before we talk coal," he said of his customers who are aware of his travels to the major dirt racing shows.

But Williams hasn't neglected the coal business to follow racing. His company, in business since 1970, has won reclamation awards from the State of West Virginia in each of the last three years. Tamroy is involved in major capital investments to upgrade its loading facilities in West Virginia.

BILL'S PERFORMANCE SHOP

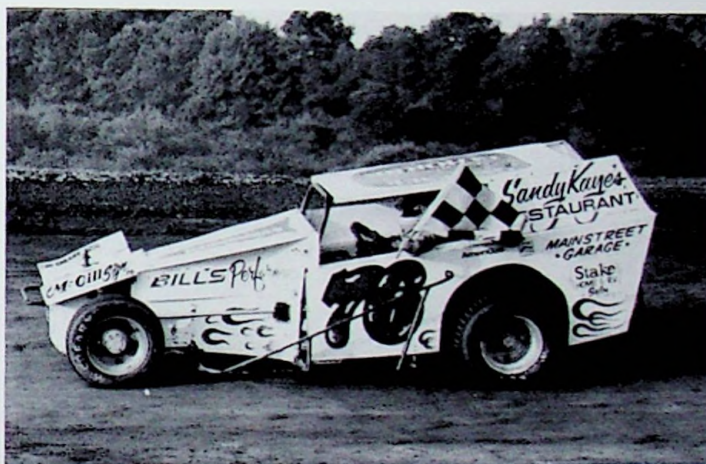

IN
New Alexandria, PA

has expanded to accommodate your machine shop and parts needs. We have over 24,000 sq. ft. of total IN HOUSE MACHINE SHOP FACILITY.

This expansion was made necessary because of the need for quality machine work expressed by the many customers that called on us. We now have the very latest in equipment. We also employ the very finest machinists including three (3) very talented Engine Builders. This enables us to take care of all your machine shop needs. All of this means that we now can handle **EVERYTHING** from your Briggs & Stratton engine to your Caterpillar D10. We also offer expert machining for your Marine, Truck & Tractor Pullers, Circle Track and Drag applications. Because of the increasing need for custom tailoring of Racing Engines we offer Blueprinting service as well as tailoring of individual componets.

Bill's Performance has always offered a wide selection of hard parts. Look for our newly added Hard Parts Store. This store will carry a complete line of Automotive gaskets, pistons, rings, rod bearings, main bearings, and much, much more. To our **HEAVY DUTY DIESEL** customers we will do our best to stock up—to—date parts coverage on Caterpillar, Cummins, Mack and Detroit Diesel Engines. This will allow us to give consumers the quality and price economics sought after in todays Industrial Market. With our highly trained Personnel you will have the advantage of getting expert advice in selecting the right parts the first time. This new addition, when combined with our machine shop facilities, makes us your main source for Engine Rebuilding.
