Thank You for attending the Races
at Springfield Speedway

WEATHER RULES AND FLAG SIGNALS

IN THE EVENT a sudden shower occurs, the starter will halt the races. If the rain, in the opinion of the track steward, is sufficient to cancel the remainder of the contests, racing will not be resumed.

During the rain, spectators in bleachers are asked to take shelter in cars or under the grandstand. After the rain stops, sufficient time will be allowed for fans to return to seats before racing resumes. When it rains to the extent that the program cannot be continued, the following rules will apply.

If four events, not including time trials, have been completed, rain checks will NOT be honored. Four events will have constituted the program. However, a special event will be added to the next week's race show. If four events have not been finished, rain checks will be honored at the following week's program.

Flag signals employed by the starter are: GREEN, start, the course is clear; RED, stop, race is halted; YELLOW, caution, hold position, get car under control; BLACK, stop next lap for consultation; KING BLUE, competitor is trying to overtake you; WHITE, entering last lap; CHECKERED, finish.

INSTRUCTIONS FOR
SPECTATORS

LOST AND FOUND ARTICLES

Inquire about lost and found articles at the office under the main grandstand, or consult an usher.

SERVICE TO PHYSICIANS

Physicians expecting emergency calls during the races should register their seat location at the office.

PUBLIC ADDRESS ANNOUNCEMENTS

Please do not ask to have announcements made or persons paged over the public address system, except under such circumstances as serious illness or accident. In this case, go to the office.

CONCESSIONS

There are concession stands under the center of the main grandstand and at the west end of the bleachers and the clubroom.

SAFETY

Please do not throw anything over the back of the grandstand. People walking below could be injured.

NOTICE

This publication was made possible for you by the firms whose advertisements appear on these pages. We suggest that you consult these pages and make purchases from the merchants who contributed funds to support it. They are your friends and deserve your patronage.

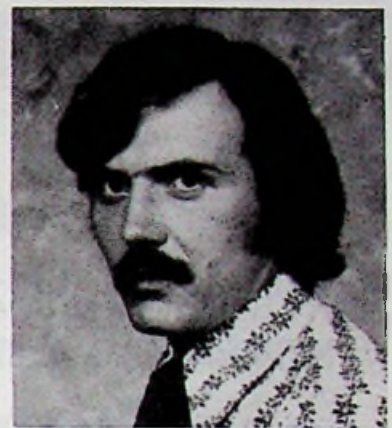

IN MEMORIAM

Kenneth Franz

Cliff Powell

Robert Dunn, Jr.

The Springfield Speedway family has been depleted by three over the past year. While Robert "Bobby" Dunn Jr., Kenneth "Kenny" Franz, and Cliff Powell are no longer with us in the physical sense, we know that they remain in the hearts and minds of those who were fortunate to know them.

Kenny Franz' most consuming interest outside his family was auto racing. He came to the sport as an avid fan, but became involved in a variety of ways. By 1986, he was a flagman, working for the Midwestern Midget Auto Racing Association, as well as Springfield, Macon and Jacksonville Speedways. During qualifications at Jacksonville one night last summer, a car lost control and struck Kenny. Although his strength carried him through several days, he succumbed to the injuries.

Cliff Powell first appeared at Springfield many years ago as a driver — and a fine one at that. But most people who have attended the races in recent years will recall him as the fuel supplier for the racers. In fact, Cliff supplied Cam 2 racing fuel and alcohol to many of the tracks in Illinois, Iowa, and Missouri; but more than the services he provided to the racers, he will be remembered as a fine friend to many. Cliff's life ended senselessly last winter, but his 1000-watt smile will always shine for those who knew him.

Bobby Dunn never achieved "greatness" behind the wheel of a sprint car in terms of winning races, but he became one of the track's stalwarts during the 1970s and early '80s. For Bobby, winning was important, but simply participating was much, much more important. For as many years as he could, he fielded a car, and his tenacity earned the respect of his peers as well as the admiration of fans. A Vietnam veteran, Bobby succumbed to poor health in the winter of 1987 and became the only individual for whom a memorial service was held at the track.

Springfield Speedway's history is the richer for having known the likes of Bobby, Kenny, and Cliff. They are sorely missed.

ABOUT \$40,000 worth of racing equipment is represented in the picture, and the three midget cars will race at Palm Beach Speedway tonight in the AAA's inaugural midget championship event of the year. Joe Shaheen is the owner and mechanic of the racing team. Veteran Shaheen will perform a remarkable feat of driving at tonight's races when he takes one of his own cars out on the half-mile oval, and drives it around the track at full speed — blindfolded. The race is the opening event of a three-race program cooked up by the Speedway in conjunction with the County Fair, now in progress at the Speedway grounds. — WEST PALM BEACH, FLORIDA-1950.
